

Our assistant manager Ann Marie Falconer joined us in August 2022. Ann Marie has worked to support children and young people with disabilities since 2013, first with a charity providing enabling services and then with young people in education. Her extensive professional experience is complemented and informed by her invaluable personal experience, as both a parent and a grandparent of children with autism. Ann Marie focuses on providing a truly person-centred experience for everyone attending our activities. She has devised and implemented strategies that help our young people to communicate and to support them to manage their behaviours. Ann Marie has an SVQ 2 in Childcare, a Personal Development Award in Education Support, and an SVQ 4 (level 10) in Care Services, Leadership and Management.
